Chief, Budget Division

Additional Allocation of Fiscal Year 1959 Funds for the
Office of Security

1. At a meeting in the Comptroller's Office on 3 April 1959 you will recall that it was agreed that the Office of Security budget for Fiscal Year 1959 would be increased by \$373,937 as soon as available funds elsewhere in the Agency could be released for that purpose.

2. An allocation increase of \$24,875 [REDACTED] was issued on 8 April 1959 and the remaining increase of \$349,062 is enclosed. While it was recognized in the course of the meeting referred to above that the actual increase required might be \$400,000 or more, it is also possible that additional "savings" may be more readily available later in the fiscal year. Our analysts will therefore be in constant touch with your office and will attempt to make any adjustments which appear necessary. It is also hoped, as discussed with Mr. [REDACTED] that sufficient "savings" will be available to provide for the obligation of the \$315,000 required for project [REDACTED] in Fiscal Year 1959.
